CS-BHEEM_20

Aerial Payload Striker

High-precision autonomous UAV engineered for loitering, tactical payload deployment, and target engagement, optimized for mission-critical operations with exceptional reliability and rapid response capability.

cerebrospark.in

Upto
10 km*
OperationalRange

20 kg
Payload Capacity

Over
30 min
FlightTime

Applications

Defence
Ammunition and equipment delivery to remote units.

Disaster Relief & Humanitarian Aid
Rapid delivery of critical medical supplies, vaccines, and blood units

Loitering Ammunition
Dropping of loitering munitions on target.

Commercial & Industrial
Logistics support in remote or congested locations

CS-BHEEM_20

Specifications

Endurance
>30 minutes* with either payload (upto1000 m(3280 ft) AMSL Take-off)

Operational Range (LoS)
10 km*

Payload Capacity
20kg

Wind Resistance
36km/h (20 knots)

IngressProtection
IP54Rated for Dust &WaterResistance

OperatingAtitude
500 m AGL (Above Ground Level)

Max Launch Altitude
3000 m AMSL(AboveMeanSea Level)

CompatiblePayloads/ CameraOptions

HD Daylight Payload
1280X720pixels,10xOptical Zoom

Thermal Payload
320 x 240, 640x480pixels

Custom Loiter & Ammunition Dropping System

GroundControlSoftware

AdvancedMissionReplay
with videoand UAVposition

Supports
CustomMaps

Easy &Intuitive
UserInterface

Waypoint-based
navigation for ease of flying

Terrain Avoidance
tokeepyour Drone safe

Accuracy Beyond the Horizon.

AdvancedFail-safe Features
For CommunicationLoss, Low Battery & Radio Failsafe

Optional Features

1.Obstacle avoidance System
CS-Bheem UAV detect and avoid obstacles in real time for safe, precise flights.

2. Custom Loiter & Ammunition Dropping System
CS-Bheem drone hover strategically and deliver payloads with pinpoint accuracy.
