CS-PRIDE

Frontline Vision Hawk

Versatile autonomous UAV designed for surveillance, reconnaissance, and combat support, excelling in demanding mission-critical scenarios with proven reliability.

Upto
2 km*
OperationalRange

250 gm
Max Take-off Weight

Over
20 min
FlightTime

Applications

Defence & Tactical Ops

Real-time situational awareness, close-range reconnaissance, and training for combat readiness.

Training & Simulation

FPV piloting practice, drone racing, and simulation-based skill development.

CS-PRIDE

Specifications

Endurance
>20 minutes* with either payload (upto1000 m(3280 ft) AMSL Take-off)

Operational Range (LoS)
2 km*

Weight
<250gm

Wind Resistance
20km/h (20 knots)

IngressProtection
IP54Rated for Dust &WaterResistance

OperatingAtitude
120 m AGL (Above Ground Level)

Max Launch Altitude
3500 m AMSL(AboveMeanSea Level)

CompatiblePayloads/ CameraOptions

HD Daylight Payload
1280X720pixels

Thermal Payload
320 x 240, 640x480pixels

GroundControlSoftware

AdvancedMissionReplay
with videoand UAVposition

Supports
CustomMaps

Easy &Intuitive
UserInterface

Waypoint-based
navigation for ease of flying

Terrain Avoidance
tokeepyour Drone safe

AdvancedFail-safe Features
For CommunicationLoss, Low Battery & Radio Failsafe

Optional Features

1.GNSS DENIED FILIGHT

CS-Mamba UAVs detect and avoid obstacles in real time for safe, precise flights.
